CORPXSASIA

YOUR NEW ROAD TO CORPORATE ACCESS

In current situations where travel is complicated, or even somewhat impossible, the use of technology becomes crucial in keeping in touch with Investor counterparts. The alternative of **Video or Conference call NDR's** can prove to be incredibly complementary to your current Corporate Access strategy. If you are looking to round out your Corporate Access, CorpXSasia can be your solution on all levels.

Virtual meetings require a highly effective and dedicated service ensuring all elements work simultaneously; Investor, Technology and the Corporate. CorpXSasia is best placed due to its independent status, intimate knowledge of the global investor base, actual access to relevant investors and experience in Corporate Access.

We offer two options; Stand alone Pay-as-you-go **Video & Conference Call NDR** and our premium service, **VideoXSasia**, part of a subscription **Corporate Access package**, which combines Premium virtual meetings with standard NDR's.

Both enhance a complete Corporate Access strategy in both a time and cost efficient manner.

Virtual Corporate Access

HOW DOES IT WORK?

Much like a normal NDR, we would actively advise you on which investors would be interesting or best positioned to speak with you based on AUM, size, approach, investment strategy and fund restrictions.

- 45 minute calls and a maximum of 6 calls per day
- Between the hours of 4pm – 9 pm (to match with UK/EU investors)
- Over a full week this would mean 30 calls with a variety of interested investors
- The effort saves time, funds and jet-lag, but requires a dependent partner who confirms meetings & handles technology.
